

ADOPT A LEGISLATOR

Every legislative session has different challenges. In an effort to reach out to more legislators during the 82nd Legislature, we need your help. OUR challenge is to quickly develop relationships with and educate the members about the importance of JPs and constables as the courts and law enforcement closest to the people. The legislator who knows you and respects your work is not likely to vote to adversely affect constables and JPs. And since senators and representatives usually respond more favorably to people they know from home, *we are asking you to take responsibility to educate your representatives and senators about the importance of JPs and constables in your community.*

If you know a state representative and/or state senator in your area and we can call upon you to make contact regarding legislation that affects justices of the peace and constables, please provide this information.

If you would like to receive legislative updates, please complete the top portion and mail or fax to the office mentioned below. You must include your email address to get the updates. Thank you.

YOUR CONTACT INFORMATION

Name: _____

Title: _____

County: _____

E-mail: _____

Phone: _____

LEGISLATOR INFORMATION

State Representative: _____

State Senator: _____

Please provide in the space below any additional information about your legislator that will be beneficial to the JPCA.
